

NOBAC STACKER

The perfect entry level 'manual' linerless labelling machine.

NEW AND IMPROVED FOR 2022

The Stacker now features a new cabinet design with Nobac 5000 style 'barn' doors which allow for more space to access machine internals.

GENERAL OPERATION

- Cuts and stacks Ravenwood linerless labels for hand application
- Cutting speeds of 100 labels per minute to a stacked height of 140mm
- Ideal for short production runs and/or lower volume runs
- Provides the same quality linerless labels as applied by the Nobac 5000 range
- Shares the same consumables as the Nobac series
- Useful back up machine when demand is high including Nobac machine downtime
- Coding options available for printing fixed and/or variable data
- Great for adding promotional mechanics during a product's lifecycle
- Ideal for research and development
- Useful for label converters when presenting linerless labels at design stage
- Compact at just under one metre in width
